

Questions for Community Group Discussion

The following questions are designed for you to think about, answer, and then come together with your community group to discuss.

If you children only rose to the average spiritual temperature of those in the group would you be satisfied?

What is the best thing others in the group have done to help you be who God wants you to be?

How can this group help you to be more like Jesus in the next four months?

Where have you seen spiritual growth in other group members?

Watermark community groups exist to connect people in authentic relationships that lead to spiritual transformation. This assessment was created to help your community group grow to realize this vision.

Our hope is that this assessment will facilitate this process by helping you to think reflectively about your current experience in community. The purpose of this evaluation is not just to determine the condition of your community group today, but to help you determine what your group wants to become as you grow together. After completing this evaluation we encourage you to gather together with your community group and discuss the results of the evaluation together.

Thank you for taking the time to interact with us as we work together to experience the spiritual transformation that only Christian community can bring.
